

What's the purpose?

The aim of this module is to explain the purpose, content and uses of a Safety/HSE Case. Particular attention is focused on the best practical approaches to address legal, industry and company requirements. The differing types of Safety/HSE case during the project lifecycle are discussed, as well as differences in approaches between industries. Links between the case, supporting studies and the management system are studied. Best practices for implementing and maintaining the case are also reviewed.

Who is this for?

Managers, supervisors and HSE practitioners seeking to gain practical insights into how to structure a Safety/HSE case.

What does it cover?

- Historical drivers
- Legal Requirements - UK, Europe, worldwide
- Company and industry body requirements
- Differing types of case by project phase (e.g. PSR, PCSR, design, operational, decommissioning)
- Safety/HSE Case structure and approach by industry
- Bridging documents
- Links between the case and supporting studies and the case and the management system
- Documentation, management and maintenance of the Safety/HSE Case
- Roll-out and implementation
- Features of a fit-for-purpose safety case

After completing the module you should be able to:

1. Critically review the reasons for having Safety/ HSE Cases and the role of the safety/HSE Case
2. Justify the contents of a safety case
3. Discuss the key factors to be considered when planning a safety case.

	Hours	Delivery Methods	
		Face-to-face	Distance learning
Postgraduate	80	2 days, followed by assessment	8 weeks duration
Risktec CPD	15	2 days, followed by assessment	8 weeks duration
Attendance only	15	2 days	4 weeks duration

If you are a corporate client and would like a customised delivery, please contact the training team to discuss your requirements.

What prior study is recommended?

Education, skills or experience equivalent to undergraduate level.
